

BENEFITS VER 2024.06

As stated in the General Terms and Conditions for rental, the Owner Reservation and Benefits, etc., Owners can decide which category of benefits you want to belong to by choosing the number of weeks that the Object is available for rental each Winter Season and when this is notified. Benefit category is selected at the time of signing the Agreement and can thereafter be changed annually in connection with the Owner Reservation via contact with Owner Services, see more details in the General Terms and Conditions. Which category an Owner belongs to will then be shown on the Owner Pages. If the Owner does not notify any change in benefit level in connection with Owner Reservations, on the date shown in the Owner's current benefit category on the Owner pages, the previous benefit category will be retained

The terms and conditions for each benefit category can be found in the table below. Owners undertake to follow the rules stated for their current Owner category.
